Executive Director's Message / Eddie McCormick, CEP

I would like to personally thank all of you for the generous sponsorship pledges made at this year's annual membership luncheon held on April 13th. The luncheon is not only a great networking opportunity but also serves as our kickoff for our annual convention and trade show.

The pledges help cover the costs of our convention as well as support the associations efforts throughout the rest of the year. We have made great strides in municipality areas throughout the state where we have been reaching out to city planners and code officials. This will benefit all of our members in the long run who have had issues in the past with the specification and installations of the products they install.

If you have not yet registered for the convention, please take the time to do so now. There will be a lot familiar faces from years past as well as new members. Also please take a moment to say hi when you see me at any of the events. See you in San Antonio !

LYNWOOD BUILDING MATERIALS

Congratulations to Lynwood Building Materials on winning the Complimentary 2012 Convention Registration.

Lynwood Building Materials was one of the first 50 firms entered into a drawing for renewing their 2012 Annual Membership Dues. The drawing took place at the Annual Luncheon at the House of Blues Dallas, back in April.

President's Message / Michael Vickery

I'm not sure about you, but I can not believe that summer is here, school out, and our annual convention is now only weeks away.

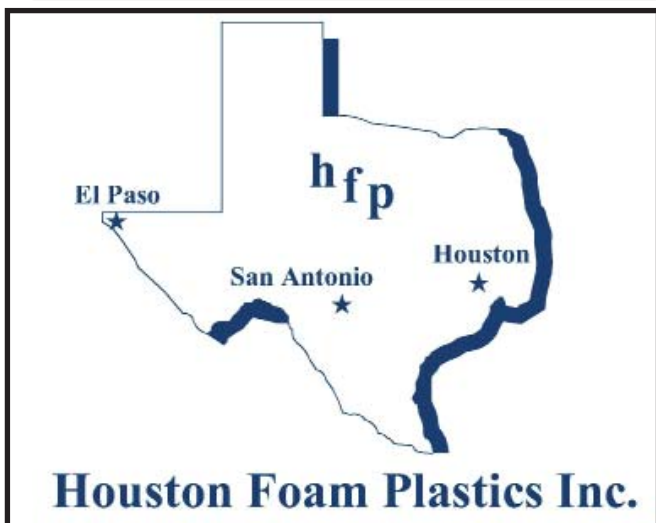

The overall mood at our last BOD meeting was much more upbeat than it has been in several years. Each regional report indicate more work bidding in each market, and more importantly, more projects being built than this time last year. I can also report that the regional reports from this year's AWCI BOD meeting were also encouraging, and let's all hope the positive news will continue for several years to come.

Our 60th convention is shaping up very well thus far. We have sold all of our booth space this year, and have had excellent registration from the architectural community in San Antonio to attend our educational seminars and lunch with the exhibitors. We are currently expecting over 50 architects at this year's convention, and as we all know, architects must first draw and specify our products before we can manufacture, distribute and install our collective products.

Let me once again extend a personal invitation to everyone to attend our 60th convention in San Antonio from June 20th – 23rd.

I hope to see you in San Antonio,

Michael Vickery
2011-2012 President
